### **Notes to Editors**

Oberon operates in the UK wealth and fund management sector and in the corporate broking and financial advisory sectors. Since Oberon Investments Ltd was established in April 2017, Oberon group's AUA have grown to in excess of £1 billion. This has been achieved organically by adding new clients and new fund managers, attracted by the emerging brand and by a number of small, selective and accretive acquisitions. Oberon Capital, the corporate broking division, launched in June 2020, provides advice and raises capital for companies from seed and early-stage funding through to IPO and beyond.
